

BRIEF BIO: SAFINA PEERZADA

I have completed my master's degree from Department of Statistics, University of Kashmir, J&K, India. From the same university, I was awarded my Ph.D. (Statistics) on the topic "An Extension of Boekee and Lubbe Measure of Information and its Applications". My papers have appeared in many reputed journals comprising PJS, JMASM, JAPS, PINDAC and many more. I have attended as well as presented my papers in many International as well as national conferences. I have proposed several methods of **generalized fuzzy information measure with their applications. Despite remaining in research, I have taught several courses at postgraduate as well as graduate level from time to time.**
